OFFICE OF PETITIONS

Applicant: Barscevicius et al.
Appl. No.: 10/519,628
Filing Date: July 23, 2003
Title: METHOD AND APPARATUS FOR MEASURING AND ADJUSTING THE SETTING
OF A CRUSHER
Attorney Docket No.: 122255
Pub. No.: US 2006/0108465 A1
Pub. Date: May 25, 2006

This is a decision on the request for corrected of patent application publication under
37 CFR 1.221(b), received on June 26, 2006, for the above-identified application.

The request is granted.

Applicant requests that the application be republished because the patent application publication
contains a material error, as the Office published a reference that was submitted in an
Information Disclosure Statement.

The corrected patent application publication will be published in due course.

It would greatly benefit the Office if **applicant did not provide copies of the application
papers**, which were previously submitted, as it unnecessarily increases the cost to the Office.
See 37 CFR 1.4(b). A request for corrected publication need only point out what was printed
incorrectly in the application, where the error occurs in the publication and where the correct text
or drawing is found in the application papers. Marked up relevant copies of the applications
papers and the pre-grant publication may facilitate processing of the request, where it is not
readily apparent where the error occurs. If it is not clear why the error is a material error, further
explanation may be warranted.

Inquiries relating to this matter may be directed to Mark O. Polutta at (571) 272-7709 (voice).
